**Third All-Russia Scientific-Practical Conference
«Prospects of Development and Problems of Contemporary Botany»**

Novosibirsk, November 10-14, 2014

SECOND ANNOUNCEMENT

Dear colleagues!

We invite you to take part in the work of the Third All-Russia scientific-practical conference "Prospects of Development and Problems of Contemporary Botany", to be held in Novosibirsk November 10-14, 2014.

The Conference organizers welcome the participation of foreign scientists.

Main topics of the conference:

- Plant systematics and phylogeny
- Geobotany and geobotanical mapping
- Mycology, algology, lichenology and bryology
- Population biology
- Molecular biology, biotechnology and phytochemistry
- Conservation of plant biodiversity and rational nature management
- Plant introduction

Contributions for oral and postal presentations are invited.

Instructions for Authors

Language: Russian and English

Registration: Registration to attend the Conference is required through our online registration system <http://conf.nsc.ru/csbg2014/en>.
