

Справка о статьях, принятых к публикации

№	Авторы	Название статьи
1	2	3
1	Yu A Abzaev, A I Gnyrya, S V Korobkov and K S Gauss	Phase analysis of hydrated Portland cement
2	Gennady Alekseev and Dmitry Tereshko	Optimization methods in the design of heat-saving functional devices
3	D M Aleksyutina, N N Shabanova, O V Kokin, A P Vergun, A V Novikova, and S A Ogorodov	Monitoring and modelling issues of the thermoabrasive coastal dynamics
4	V N Bardachevskiy, S V Ershov and N I Shestakova	Seismogeological analysis and petroleum potential of the Achimov Formation of the Gydan Peninsula
5	Victor M Belolipetskii and Svetlana N Genova	One-dimensional vertical model of permafrost dynamics
6	Alexander S Bolshev and Sergey A Frolov	Mathematical modelling of level ice with continental shelf structures interaction
7	E A Bondarev, I I Rozhin and K K Argunova	Alternative to mathematical models of gas production: numerical experiment
8	I I Buslaeva and S P Yakovleva	Significance evaluation of effect of operational changes in material on impact strength of various zones in leaf spring with test temperature
9	Yu S Glyaznetsova, I N Zueva, O N Chalaya and S Kh Lifshits	Features of Bitumoids Composition of Bottom sediments of the Coastal Zone of the East Siberian Sea
10	A I Gnyrya, Yu A Abzaev, S V Korobkov and K S Gauss	Mechanical properties of cement paste curing at different isothermal conditions
11	B N Starovoitova, S V Golovin, G V Paderin, E V Shel, E A Kavunnikova and A M	Design optimization of hydraulic fracturing
12	R N Golykh	Model of ultrasonic cavitation depolymerization of oil for evaluation of optimum modes and conditions providing reducing viscosity at low temperatures

13	I Gribanov, R Taylor and R Sarracino	Application of cohesive zone model to the fracture process of freshwater polycrystalline ice under flexural loading
14	A A Gubaidullin, O Yu Boldyreva and D N Dudko	Compression waves in porous media containing gas hydrate
15	V P Gulyaev, P P Petrov and K V Stepanova	Diagnostics of critical states of constructions operated under low temperature conditions
16	A A Deshin, P I Safronov and L M Burshtein	Reconstruction of hydrocarbon generation and accumulation on the Gydan Peninsula and adjacent offshore areas using basin modeling
17	A A Dobrodeev, N Yu Klementyeva, K E Sazonov	Large ship motion mechanics in “narrow” ice channel
18	L S Podenko, N S Molokitina, A O Drachuk, O A Simonov and E O Simonova	Analysis of unfrozen water in suspensions of permafrost bacteria with NMR technique at the temperature of permafrost occurrence
19	L S Podenko, A O Drachuk and N S Molokitina	Methane hydrate formation in dispersed polyvinyl alcohol cryogel
20	G A Dugarov, A A Duchkov and M I Fokin	Laboratory study of the acoustic properties of sand samples containing ice
21	A A Dyakonov, N V Shadrinov, M D Sokolova and A A Okhlopkova	Double layer composite material based on elastomer and ultrahigh molecular weight polyethylene
22	V V Elistratov, A S Bolshev, S A Frolov and A A Panfilov	The development of conceptual options to the construction of ice-resistant floating wind power plants
23	V L Zemlyak, V M Kozin and N O Baurin	Influence of peculiarities of the form of a submerged body on the parameters of generated waves in the ice motion
24	I K Ivanova, M Ye Semenov and V V Koryakina	Peculiarities of hydrate formation in “natural gas/asphalteneresin-paraffin deposits/water” systems
25	L P Kalacheva, I I Rozhin and A S Portnyagin	Study of hydrates formation in mineralized solutions and kinetic regularity of their decomposition
26	G I Kanevsky, A M Klubnichkin, A V Ryzhkov and K E Sazonov	Method for estimation of icebreaker propulsion performance in ice

27	E Kanin, A Vainshtein, A Osipov and E Burnaev	The method of calculation the pressure gradient in multiphase flow in the pipe segment based on the machine learning algorithms
28	V B Kashkin, D V Zuev, M A Kurako, A A Romanov, T V Rubleva and K V Simonov	Satellite monitoring of atmospheric sulphur dioxide pollution in polar latitudes
29	S M Kovalev, V N Smirnov, V A Borodkin and N V Kolabutin	Research of the physical-mechanical properties of sea ice at the scientific research station «Ice base the cape of Baranov»
30	V M Kozin, V L Zemlyak, A S Vasilyev and K I Ipatov	Experimental and numerical research of the stressed-deformed state of ice beams reinforced by surface reinforcement
31	V A Kontorovich, A U Kalinin, L M Kalinina, M V Solovev and S M Guseva	Seismogeological characteristics and oil-and-gas content of the Kara Sea shelf (South Kara, North Kara sedimentary basins)
32	V A Kontorovich, I A Gubin, A Yu Kalinin, L M Kalinina, M V Solovev and E	Seismogeological characteristics and oil and gas potential of the Arctic regions of the Siberian platform and the Laptev Sea
33	V A Kontorovich, E S Surikova and D V Ayunova	Seismogeological criteria for gas deposits forecasting in the north of Western Siberia
34	V V Koryakina, I K Ivanova and M E Semenov	Oil emulsions as medium of natural gas hydrate formation
35	V K Kostikov, N I Makarenko and A A Korobkin	Unsteady motion of circular cylinder under ice cover
36	I V Kuznetsov and S A Sazhenkov	Genuinely nonlinear impulsive ultra-parabolic equations and convective heat transfer on a shock wave front
37	V D Kurguzov	Simulation of fracture of elasto-plastic solids with cracks under conditions of out-of plane deformation
38	V I Kolpakov, N A Kudryukov, S V Ladov, Ya M Nikolskaya and S V Fedorov	The using of the shaped charges for destruction of ice cover
39	B Lunev, T Abramov, A Kalinin, V Kontorovich and V Lapkovskiy	Numerical modeling of salt domes formation in Anabar-Khatanga oil and gas area (Siberian sector of the Russian Arctic)

40	N I Makarenko, J L Maltseva, E G Morozov, R Yu Tarakanov and K A Ivanova	Nonlinear waves in marginally stable of Antarctic Bottom Water
41	A S Stoporev, A G Ogienko, L K Altunina and A Y Manakov	Co-deposition of gas hydrate and oil wax from water-in-crude oil emulsion saturated with CO ₂
42	S I Markov	A discontinuous Galerkin method for mathematical modeling of ice melting at the interaction with the environment
43	B S Maryshev and D S Goldobin	Accumulation of gases dissolved in water saturating a nonisothermal porous massif in the presence of water freezing zones
44	V S Mogilatov, I Yu Koulakov and V V Plotkin	System for geophysical observation on the drifted ice floes for investigation of the lithosphere structure in the Arctic (Project)
45	N G Musakaev, M K Khasanov and S L Borodin	Numerical research of gas-hydrate deposit development in the conditions of negative temperatures
46	A F Voevodin, V S Nikiforovskaya, N A Lapteva	Numerical simulation of hydrological and ecological regime of Siberian rivers' estuaries in the Russian sector of the arctic
47	D A Novikov	Theoretical substantiation of application of the hydrocarbon accumulation prospecting technique in Western Siberia based on the study of water-gas equilibria
48	D A Novikov	Genetic classification of subsurface waters and brines of Arctic regions of Siberia
49	D A Novikov, F F Dultsev and A V Chernykh	Abnormally high formation pressures in jurassic-cretaceous reservoirs of Arctic regions of Western Siberia
50	D A Novikov, Y V Sadykova, A V Chernykh, F F Dultsev and A F Sukhorukova	Paleohydrochemistry of Jurassic and Cretaceous deposits in arctic regions of Western Siberia
51	Chernykh and F F Dultsev	Geochemistry of brines in Vendian deposits of the Siberian platform
52	Grigory V Paderin	Proxy Pseudo3D model: the optimum of speed and accuracy in hydraulic fracturing simulation
53	Alexander A Papin, Margarita A Tokareva	Problems of heat and mass transfer in the snow-ice cover

54	Sergei Petrov, Natali Mamaeva and Maksim Narushko	On the issue of climate change in the Arctic zone of the Russian Federation
55	Nikolay Pets	External ice reinforcements for ships in operation
56	Vladimir M Sadovskii, Oxana V Sadovskaya and Vladimir A Detkov	Analysis of elastic waves generated in frozen grounds by means of the electromagnetic pulse source
57	Ya V Sadykova	Singenetic waters composition reconstruction methods of mesozoic sedimentary basins
58	P I Safronov, A A Deshin, L M Burshtein	The history of hydrocarbon generation in the Mesozoic-Cenozoic sedimentary cover in the northeast of the Bolshaya Kheta megasyncline
59	M Ye Semenov, I K Ivanova, V V Koryakina	Peculiarities of natural gas hydrate formation from ice in reactors under high pressure
60	A A Sizikov, A S Stoporev, L K Altunina and A Yu Manakov	Methane hydrate self-preservation features in oil suspensions
61	A V Sosnovsky and A F Glazovsky	Freezing of mineralized water droplets in winter sprinkling
62	A S Stoporev, A P Semenov, A Y Manakov and V A Vinokurov	Study of oil sludge, waste oil and other auxiliary substances influence on the methane hydrate dissociation
63	I V Sturova and L A Tkacheva	The motion of pressure distribution over a free surface near the edge of ice ductile-brittle transition in
64	S V Suknev	geomaterials, caused by tensile stress concentration
65	E S Surikova, A E Solmin and S M Guseva	Regional model of the geological structure of the Yamal and Gydan oil-and-gas areas
66	M Yu Filimonov and N A Vaganova	Simulation of influence of various technical systems on permafrost boundaries movement
67	I V Filimonova, A V Komarova, L V Eder and I V Provornaya	State instruments for the development stimulation of Arctic resources regions
68	Yu A Chirkunov	Invariant submodels of model of nonlinear diffusion in inhomogeneous medium with nonstationary absorption or source
69	K A Shishmarev, T I Khabakhpasheva and A A Korobkin	The ice response to an oscillating load moving along a frozen channel

70	L V Eder, I V Provornaya, I V Filimonova and A V Komarova	Exploration and production of oil and gas as a factor of economic development of the Arctic resource regions, resource curse
71	E S Yaroslavtseva and L M Burshtein	Hydrocarbon expulsion history in Kuonamka formation of North Tunguska Petroleum region
72	E M Nurullayev and N Yu Lyubimova	Experimental and theoretical basis for the creation of frost-resistant polymeric composite materials
